Has anything about your final year changed for the better because of COVID-19?

"Because of big gatherings, I have learnt to really appreciate the time I can spend with my friends."

"I realise how lucky we are to live in New Zealand with comparatively few cases of COVID-19."

"Our school worked really well and I am so glad that we have kept aspects of it even though we have had to adapt to the restrictions of COVID-19, particularly coping with not having face to face lessons during lockdown. I have surprised myself with how adaptable I have been."

"I think COVID-19 has forced Year 12 students to discover their own learning styles and that they need support from and contact with their friends and family."

"During lockdown, I spent a lot more time with my family and even though I am determined to continue to prioritise spending time with the people I love, especially my sister and nieces who do not have school, I have missed my friends."

"While COVID-19 has thrown many curveballs in my direction, it has also provided an important opportunity for me to focus on making the very best of situations and having a positive mindset. I have focused on making the very best of situations and having a positive mindset."
