has been wonderful to hear
the excitement and see the joy
in our young people as they
have commenced their classes,
co-curricular activities and

and it has been wonderful to witness the new students
being made welcome and the older ones supporting
and helping our younger members of the school. The
students have taken delight in seeing the changes to
facilities and improvements made over the summer

With the College almost at student
capacity and having reached our
mature model of 'ideal' size almost
two years ahead of schedule, it is
important to note that there are no
plans to become any bigger. Our
current size allows us to have the
sense of a 'small school' so highly
valued where every student is really

for our students. So, as we begin
2021, we have a new theme; "Oxley
College. One School. One Focus on Excellence".

There is a saying what we focus on, we grow! In 2021

Thriving Learning

Welcome back to all our students, families and teachers. We are very excited to be able to be back on campus, inspired by our Pin Oak, ready and eager to learn new things in 2021.

Welcome to 2021!

It has been wonderful to welcome students back to Oxley at the start of the school year, as well as to welcome the 121 students who have joined the Senior School across Years 7-12. The beginning of the 2020 school year already feels a long time ago, when we returned to school in the midst of a terrible

It's always exciting to be in a new year, particularly at the beginning of a new year. There is a renewed sense of optimism about the possibilities and opportunities ahead. Everyone is rested and feeling ready for anything!

We are lucky as teachers, to be involved in the vocation of growing people and developing potential. The quote by Pearl Buck reveals something about excellence that is so true. That is, that excellence brings joy because it is linked to mastery. That we can do or achieve something we didn't as human beings.

The PERMA model of wellbeing made famous by Psychologist, Dr Martin Seligman, engagement; relationships; meaning and accomplishment. It is also a model for a classroom operating at its best. A classroom led by a passionate and skilled teacher ensures children are engaged, feeling positive about themselves as learners, and are making meaning of the world. Importantly, in the wellbeing sense of achievement, and within that is the implication that we must be stretching ourselves and constantly growing to have a sense of wellbeing.

As we head into a new year, we seek the joy of learning together and mastering many new skills.

Spotlight on: Spelling

At Oxley College, we have been investigating contemporary approaches to spelling instruction. We know that Spelling is a vital skill that undergirds all vocabulary, reading and even speaking development. For many who grew up with, 'Look, Say, Cover, Write, Check', mysterious. Speechless, Curwæ placed a gloved hand over her heart, bowed and then left the Jarl's private balcony.

In the day that was still just renewing, Jarl Clavicus observed the young warrior from his private balcony as she began her investigation.

He watched as she weaved in and out of houses, bartered with market stall vendors, bought various goods from merchants and had a seemingly long, stirring conversation with Lund; a withering, lazy farmer who had arrived upon the citadel's doorsteps in a drunken haze seven years ago.

By the time the orb began to dull into yet another night, Curwæ had forgone her armour and was now bedecked in yellow robes with a tight leather corset; traditional of a typical woman within hY' 9a YfUX'JU'Ym'hY'>Jf\UX'ei YghYX\Yf'rc' ÜbX'hY'X]gc:VYmYf' and earn the trust of the people. She had done just that and more.

In one day, she had already found a name. The old man, Lund, had confessed to murdering his best-friend over a simple farming feud and had a reputation for causing trouble within the Tavern. These simple acts made Curwæ wonder what happened behind closed doors.

As she made her way to the citadel, she noticed from afar that Jarl Clavicus was not standing upon his balcony as he routinely did. There is no resting doubt that 'the year that shall not be named' drained the spark out of us all in one way or another. Though, with the fortunate arrival of 2021 our energy tanks have been recharged as we gain that well needed spring in our step. I believe it would be passionately agreed upon that we don't re-live the unprecedented nature of last year. Hence, I have put it upon myself to gather the greatest top-notch advice to help you make the most of your year ahead.

Talk to yourself. Communication is regarded as one of the highest qualities attributing to a successful relationship, yet it is constantly neglected and forgotten when talking about an individual and their success as an independent person. It is important to talk to yourself in an energizing way to promote motivation and positivity in your life. Perhaps try and ask yourself why you feel this way and follow that with strategies to overcoming this overwhelming period. The cliché diary or journal method may be a reach for some, yet it is a brilliant form of mindfulness and allows for a greater sense of self.

DUKE OF ED.

Gold

Adventure. Verb. From the Old French 'aventurer', meaning 'to risk the loss of', or 'take a chance.'

I am by no means exaggerating when I say my DoFE Gold Hike truly was the trip of a lifetime, right here in our very own Kosciuszko National Park. We hiked through the Tantangara Wilderness Area, 200km southwest of Canberra, under the undaunted instruction of Lands Edge Leader Brendan, and our own fearless Mr Dibdin and exuberant Ms Lanser. The good spirits of our group truly made this trip special. From sharing trail mix at the top of the foreboding Mount Morgan, to patching up blisters, and donating food to those who had underestimated the fuel required for the arduous journey, this group of Duke of Ed-ers was an unforgettable mix of courageous, determined, resilient and zesty individuals who made the unbearably physical journey bearable. In between rocky ascents and much-needed breaks, our time was spent sheltering from unexpected downpours and admiring the fascinating huts of the high country we encountered. Such huts were relics from as early as the 1920s! We even found time to admire a breathtaking sunset in the saddle of two foreboding mountains. Retrospectively, I am not able to recall the physical pain that I encountered, but the mental agility and appreciation for the outdoors this trip gifted me. We were so fortunate to have Mr Dibdin and Ms Lanser give up their holiday time, and willingly embark on such an arduous journey for our sake, and I wish to deeply thank them and everyone else on the trip for being willing to 'risk the loss' of something, be it as trivial as a compass or tent peg, and adventure as a cohesive and supportive group. For anyone considering Duke of Ed in future, never forget. By Ava Lamble, Year 12
